

Driving Sustainability Forward

M. HUSSEIN, V. VAN DE WATER, A. ALSIYABI, M. ADONIS, S. ZENDA

If climate can change, we need U to change 2

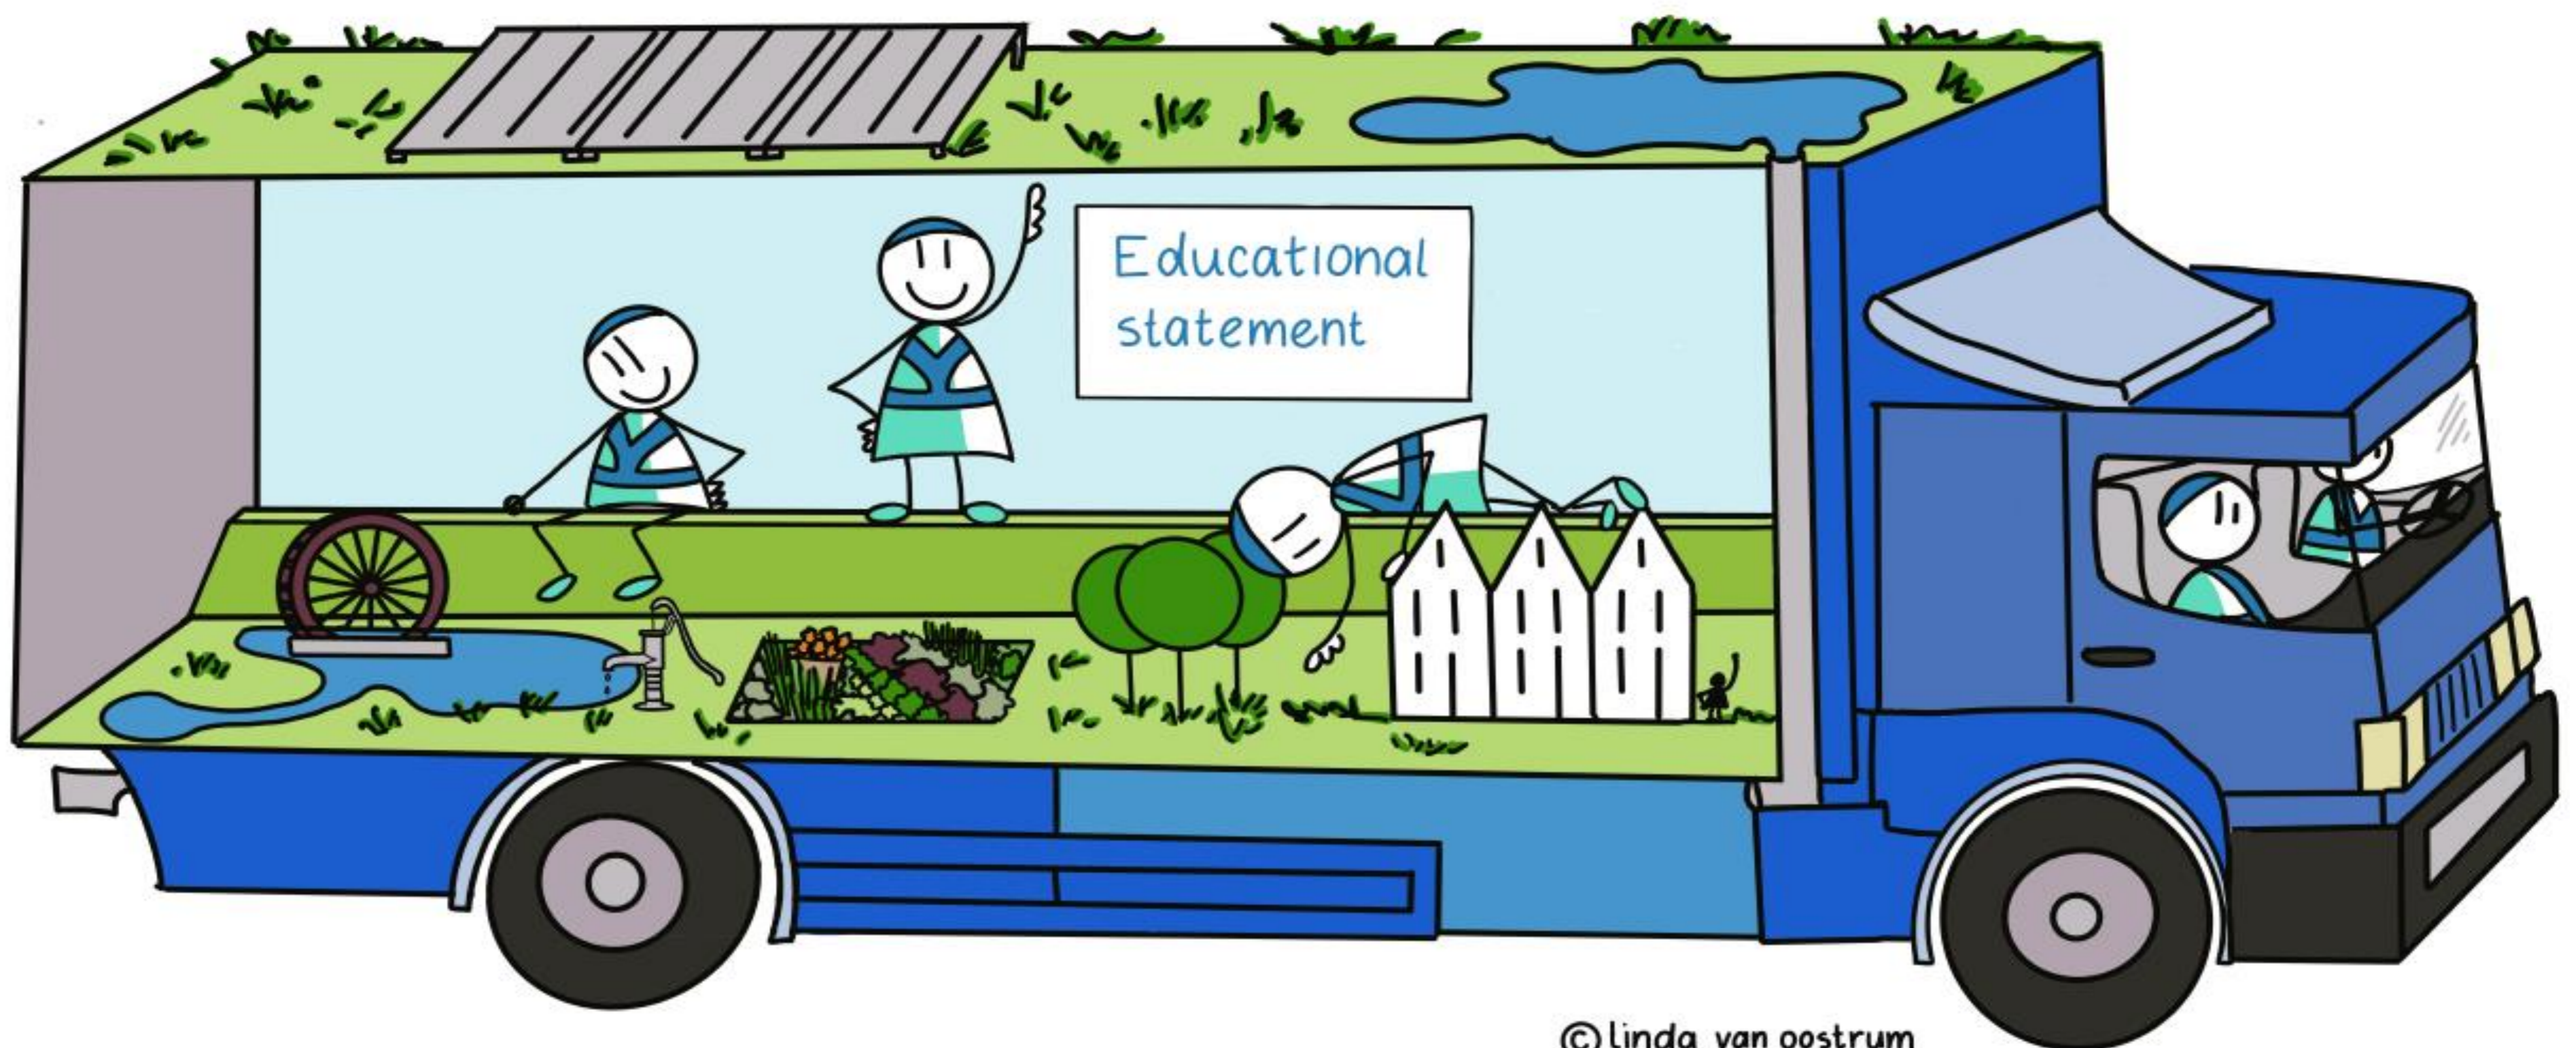

Challenge

What is the most simplified yet innovative and attractive way to encourage co-creation? We can't ignore climate change and the need for climate adaptation. So, getting everybody on board turns out to be our aim!

Solution

A sustainable mobile truck bringing education to your door step.

A self-sufficient truck demonstrating circular economy.
