The first part of the programme consists of team building, cultural activities and water-related excursions, for creating teams and wider understanding of Palestinian Territories. After this, the participants'

teams will work on your challenge with periodic guidance of Wetskills' supervisors and support from diverse local experts from academia, companies and governmental institutes.

Each team will present its solution during a special pitch session during the **International Palestinian Water Conference in Ramallah, 18-21 July (TBC)**, offering a meeting place for manufacturers, researchers, investors, academics, purchasers and decision-makers representing both local and international businesses.
